

Annual & Perennial Grass Control

ELEGANT EC

HERBICIDE

Quality Herbicide at a Sharp Price Point

ELEGANT is a selective postemergence herbicide for the control of annual & perennial grasses. It does not control sedges or broadleaf weeds. Elegant is a systemic herbicide which is rapidly absorbed and readily translocated from the treated foliage to the root systems and growing points of the plant. Treated plants show a reduction in growth and a loss of competitiveness.

ACTIVE INGREDIENT: Quizalofop-p-ethyl 96g/L

*Treats 53-80 acres
per case*

Cropland uses:

ELEGANT EC for use on camelina, canola, flax (including low linolenic acid varieties), sunflowers, soybeans (including varieties designated "sts"), seed alfalfa, lentils, peas (field and processing), seedling legumes for seed production, seedling or established creeping red fescue for seed production, established red & alsike clover for seed production, dry faba beans (dry broad beans) & narrow leaf lupin, sugarbeets, & snap beans; dry common beans; For use in western Canada on chickpeas (condiment and oilseed type) oriental mustard (including canola quality brassica juncea); yellow & brown mustard; crambe; Ethiopian mustard (brassica carinata), the following beans in southern Ontario (lima, adzuki & mung beans); rutabagas in Ontario & Quebec; and on industrial hemp grown for fibre production in Ontario only & Cucurbit vegetables in Canada.
