

Turf - Excellent Annual Broadleaf Weed Control

MESTER 480 SC

HERBICIDE

Quality Herbicide at a Sharp Price Point

MESTER 480SC is a suspension concentrate herbicide that has soil residual activity and provides selective control or suppression of annual broadleaf weeds. It has a high level of crop safety to allow for flexibility in application timing. In post-emergent applications, MESTER 480SC Herbicide is absorbed through the leaves and is rapidly translocated to the plant's growing points.

ACTIVE INGREDIENT: Mesotrione 480g/L

*Performance with
Crop Safety!*

Cropland uses:

MESTER 480SC is formulated for use in sod production.

Weeds Controlled:

Lamb's-Quarters, Wild Mustard, Redroot Pigweed Common, Ragweed*, Velvetleaf, Eastern Black Nightshade, Vetch, Creeping Buttercup, Tall Water-hemp, Volunteer Adzuki Bean, Large Crabgrass, Common Cocklebur*

* = suppression only

Features:

- Can be used safely at turf seeding to control and reduce early weed competition allowing new turf to flourish
- Application flexibility - Provides pre or post-emergent control of tough weeds
- Multiple points of entry for effective control
- Low volatility and incredible crop safety allows use on all soil types
- Convenient package size for sod production - 1.7L unit
