

Broad Spectrum Disease Control, Row & Horticultural Crops

PRINCETON

FUNGICIDE

Quality Fungicide at a Sharp Price Point

PRINCETON FUNGICIDE is a broad-spectrum systemic fungicide for control of a wide range of diseases on a wide range of field and horticultural crops. It will protect the crop from yield and quality losses due to disease. It may be used in conjunction with higher seeding rates, higher fertilizer inputs, plant growth regulators and other fungicides as required.

ACTIVE INGREDIENT: Propiconazole 418g/L

Trusted Systemic Control
